Description: The College of Pharmacy and Health Sciences strives to produce quality health care professionals, especially African-Americans and other ethnic minorities, who are competent in health care delivery, including the provision of pharmaceutical care and other health care services and programs. In fulfilling its mission and purpose, the College is committed to an innovative, productive, and receptive learning environment for research, scholarly activities and service; and to infusing new technology into its infrastructure and academic programs. The College serves approximately 800 students in its pre-professional and professional programs. Through the efforts of dedicated faculty and administrators, the College has produced competent graduates who excel in all career paths in Pharmacy and Health Sciences.
