AcqKnowledge Software

RRID:SCR_014279

Type: Tool

Proper Citation

AcqKnowledge Software (RRID:SCR_014279)

Resource Information

URL: <http://www.biopac.com/product/acqknowledge-software/>

Proper Citation: AcqKnowledge Software (RRID:SCR_014279)

Description: A software program that allows the user to perform data acquisition, stimulation and analyses. Users do not need to know the programming language or a new protocol view. AcqKnowledge Software is compatible with MP150 Research Systems, MP36R Research Systems, and MRI and fMRI Setups. A variety of offline and online analysis tools allows users to customize data recordings and targeted analyses. The software can perform automated analysis routines, output a range of stimulus paradigms, and allows users to record from multiple hardware devices simultaneously.

Resource Type: simulation software, data processing software, data analysis software, software resource, software application, data acquisition software

Keywords: data acquisition software, simulation software, data analysis software, record data, target analysis, automation, stimulus paradigm

Resource Name: AcqKnowledge Software

Resource ID: SCR_014279
