Proper Citation: Bioz (RRID:SCR_015017)

Description: Search engine that mines life sciences papers using Natural Language Processing and Machine Learning to clean, tag and structure the data. Insights focus on experimentation and include objective recommendations, ratings and insights for reagents, lab equipment, assays, protocols and researchers.

Synonyms: bioz

Resource Type: software resource, web application

Keywords: natural language processing, machine learning, text mining, text mining search engine

Availability: Registration required, Sign in required
