Proper Citation: University of Chicago Diabetes Research and Training Center Islet Cell Biology Core (RRID:SCR_015132)

Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on November 7, 2024. Core which provides services and hands-on training in the isolation and functional characterization of pancreatic islets from normal and diabetic humans and mice. It also maintains a repository of insulinoma cell lines for distribution. It puts emphasis on facilitating studies of primary islet cells and it has developed many unique tools and techniques for carrying such studies including novel animals models, biophysical methods and a library of adenovirus-based expression constructs for studying beta-cell function.

Resource Type: resource, service resource, access service resource, core facility

Keywords: islet cell biology, beta cells, health and disease, isolation of pancreatic islets

Related Condition: Diabetes

Funding: NIDDK DK20595

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: University of Chicago Diabetes Research and Training Center Islet Cell Biology Core

Resource ID: SCR_015132

Record Creation Time: 20220129T080324+0000

Record Last Update: 20260804T043546+0000

Ratings and Alerts

No rating or validation information has been found for University of Chicago Diabetes Research and Training Center Islet Cell Biology Core .
