GeneMarker

RRID:SCR_015661

Type: Tool

Proper Citation

GeneMarker (RRID:SCR_015661)

Resource Information

URL: <http://www.softgenetics.com/GeneMarker.php>

Proper Citation: GeneMarker (RRID:SCR_015661)

Description: Genotype analysis software which enhances the speed, accuracy, and ease of analysis. The software is an alternative to Applied BioSystems Genotyper®, GeneScan®, and other genotype analysis software.

Synonyms: GeneMarker: The Biologist Friendly Software

Resource Type: software resource, data processing software, software application, data analysis software

Keywords: genotype, gene analysis

Availability: Commercially available, Trial available, Runs on Mac OS, Runs on Windows, Runs on Linux

Resource Name: GeneMarker

Resource ID: SCR_015661

Record Creation Time: 20220129T080326+0000

Record Last Update: 20260804T043622+0000

Ratings and Alerts

No rating or validation information has been found for GeneMarker.

No alerts have been found for GeneMarker.

Data and Source Information

Usage and Citation Metrics

We found 1541 mentions in open access literature.

Listed below are recent publications. The full list is available at [RRID](#) .

Zhao Y, et al. (2026) Phenotypic and genotypic differences between bloodstream and non-blood *Candida krusei* isolates: implications for invasiveness and antifungal susceptibility. *Microbiology spectrum*, 14(1), e0260825.

Broschewitz L, et al. (2025) Microsatellite/SSR dataset: characterization of apple cultivars of the German Fruit Genebank. *Scientific data*, 12(1), 75.

Lamperty T, et al. (2025) Defaunation Increases Clustering and Fine-Scale Spatial Genetic Structure in a Small-Seeded Palm Despite Remaining Small-Bodied Frugivores. *Molecular ecology*, 34(2), e17620.

Han KY, et al. (2025) Genomic evidence for fisheries-induced evolution in Eastern Baltic cod. *Science advances*, 11(26), eadr9889.

Thavornkanlapachai R, et al. (2025) Diverged Populations Admixture Bolsters Genetic Diversity of a New Island Dabbler (*Parantechinus apicalis*) Population, but Does Not Prevent Subsequent Loss of Genetic Variation. *Evolutionary applications*, 18(1), e70073.

Decima Oneto CA, et al. (2025) CRISPR/Cas9 editing of CBP80 enhances drought tolerance in potato (*Solanum tuberosum*). *Frontiers in plant science*, 16, 1598947.
