Description: Software package for statistics. Used to analyze and visualize data. Extensions can be used, Python and R programming language code, to integrate with open source software. Available for Windows and Mac operating systems. Versions that were produced by SPSS Inc. before the IBM acquisition (Versions 18 and earlier) would be given origin or publisher of SPSS Inc. in Chicago. Versions that were released after the acquisition would be given origin or publisher of IBM Corp. in Armonk, NY.

Synonyms: SPSS Statistics v26, SPSS Statistics v27, SPSS Statistics v24, SPSS Statistics v25

Resource Type: data processing software, data analysis software, software resource, software application, data visualization software

Keywords: Statistics, data analysis, data visualization, statistical analysis, IBM, IBM SPSS, advanced analytics

Availability: Restricted

Resource Name: IBM SPSS Statistics
