Proper Citation: Predomics (RRID:SCR_017415)

Description: Software package for metagenomics data. Discovers accurate predictive signatures and provides unprecedented interpretability. Package contains three methods for supervised learning based on ternary coefficients. Used to discover classification models for quantitative metagenomics data.

Resource Type: software application, software resource, source code

Defining Citation: [DOI:10.1101/409144](https://doi.org/10.1101/409144)
