Description: Web tool as protein structure prediction service. Provides automated structure prediction and analysis tools that can be used to infer protein structural information from genomic data. Produces model for entire protein sequence in presence or absence of sequence homology to protein of known structure.

Resource Type: data access protocol, service resource, production service resource, software resource, web service, analysis service resource

Defining Citation: [PMID:15215442](#)

Keywords: Protein structure prediction, protein, structure prediction, prediction service, automated prediction, analysis tools, genomic data, protein sequence, protein model, bio.tools

Availability: Restricted

Resource Name: Robetta
