Proper Citation: Eppendorf: 5075 epMotion Automated Liquid Handling System (RRID:SCR_019845)

Description: System provides precise, accurate alternative to time-consuming manual pipetting and liquid handling tasks. The combination of accelerated operational speed, new software & hardware features and an increased number of worktable positions make the systems best for and flexible laboratory use across a wide range of liquid handling applications. To ensure easy and consistent use, epMotion 5075 employs both Eppendorf's established epBlue software and an new software assistant concept. This supports the programming of applications and ensures that all users can use the system with only initial training. In addition, novel features such as a new CleanCap option, including UV light decontamination and a HEPA filter for purified air, offer new standards of decontamination and sample safety. This is supported even further by an optical sensor that checks labware, liquid levels and tip counts and type at the start of each cycle, hugely decreasing any risk of error during the run.

Resource Type: instrument resource

Keywords: Eppendorf, Automated Liquid Handling Robot, Instrument Equipment, USEDit

Availability: Commercially available

Specification URL: https://raw.githubusercontent.com/SciCrunch/RRID-Instruments/main/PDF/SCR_019845.pdf

Resource Name: Eppendorf: 5075 epMotion Automated Liquid Handling System

Resource ID: SCR_019845

Alternate IDs: Model_Number_5075

Record Creation Time: 20220129T080347+0000

Record Last Update: 20260808T190142+0000

Ratings and Alerts

No rating or validation information has been found for Eppendorf: 5075 epMotion Automated Liquid Handling System.

No alerts have been found for Eppendorf: 5075 epMotion Automated Liquid Handling System.
