Proper Citation: Horiba: Camsizer P4 Dynamic Image Analysis System Particle Size (RRID:SCR_020033)

Description: Digital image processing particle size and shape analysis system that provides rapid and precise particle size and particle shape distributions for dry powders and bulk material in size range from 20 um to 30 millimeters. This technique provides wide variety of information about sample, from general size measurement, to shape parameters that can be closely correlated to specific performance characteristics. This also allows correlation to existing data from techniques as diverse as sieving, microscopy, and hand caliper measurement.

Resource Type: instrument resource

Keywords: Horiba, Dynamic Image Analysis System Particle Size, Instrument Equipment, USEDit,

Availability: Commercially available

Resource Name: Horiba: Camsizer P4 Dynamic Image Analysis System Particle Size

Resource ID: SCR_020033

Alternate IDs: Model_Number_Camsizer P4

Record Creation Time: 20220129T080348+0000

Record Last Update: 20260801T190642+0000

Ratings and Alerts

No rating or validation information has been found for Horiba: Camsizer P4 Dynamic Image Analysis System Particle Size.

No alerts have been found for Horiba: Camsizer P4 Dynamic Image Analysis System Particle Size.
