Proper Citation: TTP Labtech: Mosquito HV Automated Liquid Handler (RRID:SCR_020866)

Description: TTP Labtech introduced the mosquito HV liquid handler to bridge the gap between nanolitre and microlitre pipetting. It provides accurate liquid handling for low volume serial dilutions and assay plate preparation across the intermediate volume range of 500 nL to 5 µL. TTP Labtech's mosquito HV can be employed for a wide range of chemical and biological-based applications; including compound and small molecule screening, cell- or bead-based assays, enzyme kinetic assays, ELISAs, and molecular biology applications including rtPCR/qPCR set-up, RNAi screening and SNP genotyping.
