Proper Citation: Zeiss: Libra 200MC Monochromator (RRID:SCR_020920)

Description: Monochromated field emitter that produces high resolution high contrast images due to the Zeiss proprietary electron gun monochromator (MC) and Kohler illumination system. The monochromator enables the operator to reduce the energy width of primary electrons to less than 0.2 eV and thereby allows for highest resolution in Electron Energy Loss Spectroscopy (EELS).
