Proper Citation: WordNet (RRID:SCR_022182)

Description: Lexical database of English. Nouns, verbs, adjectives and adverbs are grouped into sets of cognitive synonyms (synsets), each expressing distinct concept. Synsets are interlinked by means of conceptual-semantic and lexical relations. Resulting network of meaningfully related words and concepts can be navigated with browser.

Resource Type: data access protocol, data or information resource, database, software resource, web service

Keywords: Lexical database of English, cognitive synonyms, synsets, meaningfully related words

Availability: Free, Freely available

Resource Name: WordNet
