Description: Software package to generate area proportional Euler diagrams using numerical optimization that display set relationships (intersections, unions, and disjoint) with circles or ellipses. Area Proportional Euler and Venn Diagrams with Ellipses.

Resource Type: data processing software, data visualization software, software application, software resource

Keywords: Euler, Venn Diagrams, Ellipses, generate area proportional Euler diagrams, display set relationships with circles or ellipses, intersections, unions, and disjoint,

Availability: Free, Available for download, Freely available

Resource Name: eulerr
