Proper Citation: trinetx (RRID:SCR_022760)

Description: Network of healthcare organizations, together with data partners in Brazil, South Korea, and Japan, to bring clinical facts on more than 250 million patients around the world. Federated model so users of this data are ensured new patients, observations, and results every day, all harmonized to standard terminology like ICD-10 and LOINC without any data wrangling required at the point of care. The raw data is not available to authors of papers and papers in medicine are being retracted.

Resource Type: data or information resource, database

Keywords: Data, medical data, clinical facts, patients around the world, raw data is not available to authors, papers in medicine are being retracted

Availability: Restricted

Resource Name: trinetx

Resource ID: SCR_022760

Record Creation Time: 20220920T050146+0000

Record Last Update: 20260806T054743+0000
