3D Printed Multi Pump System

RRID:SCR_023575

Type: Tool

Proper Citation

3D Printed Multi Pump System (RRID:SCR_023575)

Resource Information

URL: <https://www.instructables.com/3D-Printed-Syringe-Pump-Rack/>

Proper Citation: 3D Printed Multi Pump System (RRID:SCR_023575)

Description: System includes 3D Printed Syringe Pump Rack composed by 5 Syringe Pumps to have 2 continuous flow systems and one remaining pump. Syringe Pump is used to gradually administer small amounts of fluid to patient or for use in chemical and biomedical research. Main features include Open hardware/software, Extremely compact size (7cm movement range), High precision lead screw and nut, Simple to use (command line interface), Simple to replicate, Minimal clean Design.

Synonyms: 3D Printed Syringe Pump Rack

Resource Type: instrument resource

Keywords: 3D Printed Syringe Pump Rack, Syringe Pumps, continuous flow system, OpenBehavior

Availability: Freely available, Available for download,
