Proper Citation: LIFEx (RRID:SCR_025284)

Description: Software for calculation of radiomic features for medical images. Enables calculation of conventional, histogram based, textural, and shape features from PET, SPECT, MR, CT, and US images, or from any combination of imaging modalities. Dedicated to researchers, radiologists, nuclear medicine physicians and oncologists to give access to 306 histogram, textural and shape indices in addition to conventional indices and where users can change calculation options.

Resource Type: data processing software, software application, software resource, image analysis software

Defining Citation: [PMID:29959149](#)

Keywords: radiomic features calculation, medical images, histogram, textural, shape features, PET, SPECT, MR, CT, US, images,

Funding: IDEX Paris-Saclay University ;
European Commission

Availability: Restricted

Resource Name: LIFEx

Resource ID: SCR_025284

Record Creation Time: 20240426T053251+0000

Record Last Update: 20260815T042934+0000

Ratings and Alerts

No rating or validation information has been found for LIFEx.

No alerts have been found for LIFEx.
