Proper Citation: TooManyCellsInteractive (RRID:SCR_025315)

Description: Web browser-based JavaScript application for visualizing hierarchical cellular populations as interactive radial tree. Allows users to explore, filter, and manipulate hierarchical data structures through intuitive interface while also enabling batch export of high-quality custom graphics.

Abbreviations: TMCI

Resource Type: web application, software resource, source code

Keywords: Single-Cell Analysis, Data Visualization, hierarchical data structures, visualizing hierarchical cellular populations, interactive radial tree, custom graphics,

Availability: Free, Available for download, Freely available
