Description: DokuMate helps standardize and reuse documents, simplifies and speeds-up editing, and automates many tedious tasks. A docId is one of the “magic” Content Control tag names. A docId is an alphanumerical ID (e.g., “R01-01-C00”, “R01-11-100”, “R01-11-410”, “R01-30-100”) that uniquely identifies and sorts documents (e.g., Schedule C, Exhibit 1, Attachment 4.1, Appendix 1) within a larger set of documents, e.g., all documents belonging to (a) a specific RFP or (b) the set of contracts between a first party and a second party.
