Proper Citation: University of Virginia School of Medicine Center for Human Therapeutics cGMP Core Facility (RRID:SCR_025475)

Description: Offers manufacturing of cellular and biologics for safety and initial efficacy testing in first—in— human, pilot, and Phase I clinical trials. Facilitates bench—to—bed translation into novel cellular therapies. Provides focused scientific, technical, and regulatory support for investigator-initiated investigational new drug applications (INDs) in cell and gene therapy. Current and completed trials include hematologic malignancies multiple myeloma, breast cancer, prostate cancer, glioblastoma, neuroblastoma, and pancreatic cancer. The potential applications of cellular therapy and biologics are not limited to cancer, a large number of disease indications such as cardiovascular, autoimmune diseases, diabetes, neurological diseases, etc.

Synonyms:, UVA School of Medicine Center for Human Therapeutics cGMP Facility, University of Virginia School of Medicine Center for Human Therapeutics cGMP Facility

Resource Type: service resource, core facility, access service resource

Keywords: manufacturing of cellular and biologics, safety and initial efficacy testing, novel cellular therapies, new drug applications,
