Proper Citation: University of Michigan Ion Beam Core Facility (RRID:SCR_026756)

Description: Laboratory is part of the Department of Nuclear Engineering and Radiological Sciences in the College of Engineering. MIBL is part of the National Nanotechnology Infrastructure Network. Services involve advancing our understanding of ion-solid interactions. Provides instruments for conducting ion beam surface modification and ion beam surface analysis under range of conditions. Experiments can be conducted at high or low temperature, in ultra-high vacuums, in reactive gas and in short turnaround times.
