Proper Citation: Mayo Clinic Structural Biology Core Facility (RRID:SCR_027490)

Description: Core offers instrumentation and support for the structural characterization of biological macromolecules to investigators at Mayo Clinic and its partner institutions. Supports cryogenic sample electron microscopy (cryoEM), along with associated services such as training, data collection, processing, analysis, and data storage. Future services will include nuclear magnetic resonance (NMR) spectroscopy and X-ray crystallography.
