Proper Citation: University of Technology of Compiègne INGESYSBIO meta-platform Core Facility (RRID:SCR_028017)

Description: Specialized research and technical core at the Université de Technologie de Compiègne (UTC), specifically within the BMBI (Bio-Mechanics and Bio-Engineering) CNRS lab, dedicated to the engineering of biological systems. Designed to support training, research, and development activities in the healthcare field, acting as a bridge between engineering and biology. Integrates complementary technological facilities dedicated to the engineering, production, culture, and characterization of biological systems, ranging from simple models to complex structures. It brings together expertise covering the entire experimental workflow, from the design and fabrication of technological devices and biological supports to their cultivation, monitoring, and functional analysis.

Synonyms: , INGESYSBIO meta-platform, Université de Technologie de Compiègne (UTC) INGESYSBIO meta-platform

Resource Type: core facility, access service resource, service resource

Keywords: ABRF, engineering and biology, design and fabrication of technological devices and biological supports, cultivation, monitoring, functional analysis,

Resource Name: University of Technology of Compiègne INGESYSBIO meta-platform Core Facility

Resource ID: SCR_028017

Alternate IDs: ABRF_5787

Alternate URLs: https://coremarketplace.org/RRID:SCR_028017/?citation=1
