Human Gene Trap Mutant Collection

RRID:SCR_001634

Type: Tool

Proper Citation

Human Gene Trap Mutant Collection (RRID:SCR_001634)

Resource Information

URL: <http://clones.haplogen.org/>

Proper Citation: Human Gene Trap Mutant Collection (RRID:SCR_001634)

Description: Collection of isogenic human cell lines that are deficient for the expression of single genes. The current collection is based on the human cell line KBM-7 (Kotecki et al. Experimental Cell Research 1999), which is haploid for all chromosomes except chromosome 8 and a small part of chromosome 15. In these cells, genes are disrupted by the means of a retroviral gene trap. The collection is being expanded to cover the majority of expressed genes. The Human Gene Trap Mutant Collection is generated as a public-private partnership between CeMM (the Research Center for Molecular Medicine of the Austrian Academy of Sciences) and Haplogen.

Resource Type: material resource, biomaterial supply resource, cell repository

Keywords: isogenic human cell line, human cell line, deficient expression, kbm 7

Funding: Zentrum fur Innovation und Technologie ;
EMBL ALTF1346-2011;
ERC ERC-2009-AdG-250179-i-FIVE

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: Human Gene Trap Mutant Collection

Resource ID: SCR_001634

Alternate IDs: nlx_153909

Record Creation Time: 20220129T080208+0000

Record Last Update: 20260804T043129+0000

Ratings and Alerts

No rating or validation information has been found for Human Gene Trap Mutant Collection.

No alerts have been found for Human Gene Trap Mutant Collection.
