Proper Citation: Salk Institute for Medical Research: Laboratory for Cognitive Neuroscience (RRID:SCR_001851)

Description: The Salk Institute's Laboratory for Cognitive Neuroscience (LCN) is dedicated to the study of the neural and genetic underpinnings of language and cognition. The LCN organizes its resources into two research foci: Linking Gene, Brain, and Cognition, and Language, Modality and the Brain. Linking Gene, Brain, and Cognition: Behavioral Neurogenetics: - This research is designed to increase the understanding of genetically based disorders, to investigate the consequences of genetic alterations on the development of the brain, and to explore the resulting alteration of cognitive capabilities. Language, Modality, and the Brain: - The focus of this research is to obtain a greater understanding of how language and cognition are represented in the brain. Sponsors: This resource is supported by LCN.

Abbreviations: Salk Institute LCN

Synonyms: Salk Institute LCN

Resource Type: portal, topical portal, data or information resource

Keywords: gene, genetically based disorder, genetic alteration, genetics, brain, cognition, cognitive neuroscience, development, modality, neural, language

Availability: Free, Freely available

Resource Name: Salk Institute for Medical Research: Laboratory for Cognitive Neuroscience

Resource ID: SCR_001851

Alternate IDs: nif-0000-10415

Old URLs: <http://www.lcn.salk.edu/>

Record Creation Time: 20220129T080209+0000

Record Last Update: 20260807T042530+0000

Ratings and Alerts

No rating or validation information has been found for Salk Institute for Medical Research: Laboratory for Cognitive Neuroscience.

No alerts have been found for Salk Institute for Medical Research: Laboratory for Cognitive Neuroscience.
