Proper Citation: SA Instruments: Model 1025 MR-compatible Small Animal Monitoring and Gating System (RRID:SCR_002090)

Description: Magnetic resonance compatible monitoring and gating system, including software, that enables monitoring rectal temperature, electrocardiogram and respiration rate during magnetic resonance imaging scan time. The PC displays multiple waveforms, measured values, trends and gating pulses. The data Acquisition modules are controlled by menu driven software from the PC. Data acquisition modules are available to measure the following parameters: ECG, respiration (three ways), temperature (two ways), pressure including invasive blood pressure (two ways), oxygen saturation and end-tidal CO₂.

Abbreviations: Model 1025 Monitoring & Gating System

Synonyms: Model 1025 Monitoring and Gating System, MR-Compatible Model 1025 Monitoring and Gating System, Small Animal Monitoring and Gating System

Resource Type: instrument resource

Keywords: hardware, instrument, equipment, physiology, monitoring, gating, mr environment, respiration, temperature, blood pressure, oxygen saturation, end-tidal co₂, magnetic resonance, electrocardiogram, magnetic resonance imaging, software resource

Availability: Free, Freely available

Resource Name: SA Instruments: Model 1025 MR-compatible Small Animal Monitoring and Gating System

Resource ID: SCR_002090

Alternate IDs: SciRes_000157
