SEED

RRID:SCR_002129

Type: Tool

Proper Citation

SEED (RRID:SCR_002129)

Resource Information

URL: http://www.theseed.org/wiki/Home_of_the_SEED

Proper Citation: SEED (RRID:SCR_002129)

Description: The SEED is a framework to support comparative analysis and annotation of genomes. The cooperative effort focuses on the development of the comparative genomics environment and, more importantly, on the development of curated genomic data. Curation of genomic data (annotation) is done via the curation of subsystems by an expert annotator across many genomes, not on a gene by gene basis. From the curated subsystems we extract a set of freely available protein families (FIGfams). These FIGfams form the core component of our RAST automated annotation technology. Answering numerous requests for automatic Seed-Quality annotations for more or less complete bacterial and archaeal genomes, we have established the free RAST-Server (RAST=Rapid Annotation using Subsystems Technology). Using similar technology, we make the Metagenomics-RAST-Server freely available. We also provide a SEED-Viewer that allows read-only access to the latest curated data sets. We currently have 58 Archaea, 902 Bacteria, 562 Eukaryota, 1254 Plasmids and 1713 Viruses in our database. All tools and datasets that make up the SEED are in the public domain and can be downloaded at <ftp://ftp.theseed.org>

Abbreviations: SEED

Synonyms: The SEED

Resource Type: database, production service resource, data analysis service, data or information resource, data set, service resource, analysis service resource

Defining Citation: [PMID:16214803](#)

Keywords: environmental genome, eukaryal, archaeal, bacterial, viral, FASEB list

Availability: Free, Freely Available

Resource Name: SEED

Resource ID: SCR_002129

Alternate IDs: nif-0000-20923

Alternate URLs: http://www.theseed.org/wiki/Main_Page

Record Creation Time: 20220129T080211+0000

Record Last Update: 20260815T042431+0000

Ratings and Alerts

No rating or validation information has been found for SEED.

No alerts have been found for SEED.
