RDoC

RRID:SCR_002244

Type: Tool

Proper Citation

RDoC (RRID:SCR_002244)

Resource Information

URL: <http://www.nimh.nih.gov/research-priorities/rdoc/index.shtml>

Proper Citation: RDoC (RRID:SCR_002244)

Description: NIMH Strategic Plan developing, for research purposes, new ways of classifying psychopathology based on dimensions of observable behavior and neurobiological measures. In brief, the effort is to define basic dimensions of functioning (such as fear circuitry or working memory) to be studied across multiple units of analysis, from genes to neural circuits to behaviors, cutting across disorders as traditionally defined. The intent is to translate rapid progress in basic neurobiological and behavioral research to an improved integrative understanding of psychopathology and the development of new and/or optimally matched treatments for mental disorders. The various domains of functioning, and their constituent elements, are being defined by an ongoing series of consensus workshops; input from the research community and other interested stakeholders is encouraged.

Abbreviations: RDoC

Synonyms: Research Domain Criteria

Resource Type: narrative resource, data or information resource, knowledge environment, standard specification

Defining Citation: [PMID:24016027](#), [PMID:23902986](#), [PMID:22577302](#), [PMID:21198381](#), [PMID:20939653](#), [PMID:20929969](#), [PMID:20595427](#)

Keywords: cognitive system, neural circuit, behavior, cognition, comorbidity, psychiatric diagnosis

Related Condition: Mental disease

Funding: NIMH

Availability: Free, Freely available

Resource Name: RDoC

Resource ID: SCR_002244

Alternate IDs: nlx_155557

Record Creation Time: 20220129T080212+0000

Record Last Update: 20260804T043149+0000

Ratings and Alerts

No rating or validation information has been found for RDoC.

No alerts have been found for RDoC.
