# **BRAINSFit**

RRID:SCR\_002340 Type: Tool

**Proper Citation** 

BRAINSFit (RRID:SCR\_002340)

### **Resource Information**

URL: https://github.com/BRAINSia/BRAINSTools/tree/master/BRAINSFit

Proper Citation: BRAINSFit (RRID:SCR\_002340)

**Description:** A program for registering images with with mutual information based metric. Several registration options are given for 3,6, 9,12,16 parameter (i.e. translate, rigid, scale, scale/skew, full affine) based constraints for the registration. The program uses the Slicer3 execution model framework to define the command line arguments and can be fully integrated with Slicer3 using the module discovery capabilities of Slicer3

#### Abbreviations: BRAINSFit

**Resource Type:** registration software, image analysis software, data processing software, software resource, software application

**Keywords:** affine warp, analyze, c++, console (text based), dicom, image-to-image, intermodal, intersubject, linear warp, macos, microsoft, magnetic resonance, nifti, os independent, posix/unix-like, registration, spatial transformation, warping, windows
