Working Memory Trainer (RRID:SCR_002617)

Resource Information

URL: <http://www.nitrc.org/projects/wmtrainer/>

Proper Citation: Working Memory Trainer (RRID:SCR_002617)

Description: A stand-alone executable under all main Windows OS for training the working memory. The WM Trainer looks and behaves a little bit like a video-game and has been specifically conceived for children attending the primary school. However, it can be used purposefully by people of any age, including adult and elderly. This application features highest graphic quality, a powerful adaptive engine for the difficulty level, a database of users and statistical tools to evaluate the progress. Currently English, French and Italian are supported, but any language can be easily supported.
