Proper Citation: Digital Commons Network (RRID:SCR_002646)

Description: Bibliographic database that brings together free, full-text scholarly articles from hundreds of universities and colleges worldwide. Curated by university librarians and their supporting institutions, the Network includes a growing collection of peer-reviewed journal articles, book chapters, dissertations, working papers, conference proceedings, and other original scholarly work. A central discipline wheel features ten color-coded disciplines: law, social and behavioral sciences, arts and humanities, life sciences, physical sciences and mathematics, education, engineering, medicine and health sciences, business, and architecture. The size of each color-coded area reflects the size of each discipline's collection relative to the rest of DCN. Users can click on any segment of any layer of the wheel, with the selected discipline, subdiscipline, or subject navigating users to their chosen commons area where they can then proceed to a list of full-text PDFs. To be clear, typing a couple of keywords into the Search Entire Network box, also located on the homepage, might be a more efficient method than mousing around on this graphical browsing element. If you would like to contribute your institution's research to the Digital Commons Network, Use the form provided, <http://network.bepress.com/about/>

Abbreviations: DCN

Resource Type: database, data or information resource

Keywords: journal article, book chapter, dissertation, working paper, conference proceeding, architecture, art, humanities, business, education, engineering, law, life sciences, medicine, health sciences, physical sciences, mathematics, social sciences, behavioral sciences, bibliography

Availability: Free, Available for download, Freely available

Resource Name: Digital Commons Network
