Proper Citation: Piano (RRID:SCR_003200)

Description: Software R-package for running gene set analysis using various statistical methods, from different gene level statistics and a wide range of gene-set collections. The Piano package contains functions for combining the results of multiple runs of gene set analyses.

Resource Type: data processing software, software application, software resource, data analysis software

Defining Citation: [PMID:23444143](#)

Keywords: r, omics, bio.tools

Availability: Free, Available for download, Freely available

Resource Name: Piano
