Proper Citation: Binge Eating Scale (RRID:SCR_003694)

Description: A 16 item questionnaire used to assess the presence of binge eating behavior indicative of an eating disorder that was devised specifically for use with obese individuals. The questions are based upon both behavioral characteristics (e.g., amount of food consumed) and the emotional, cognitive response, guilt or shame. Each question has 3-4 separate responses assigned a numerical value. The score range is from 0-46: * 17 Non-Binging * 18-26 Moderate Binging * 27 and greater Severe Binging (Adapted from Wikipedia)
