Proper Citation: Ontario Centres of Excellence (RRID:SCR_003734)

Description: Organization that drives the development of Ontario's economy by helping create new jobs, products, services, technologies and businesses by bridging academia and industry. The program suite covers almost all stages of business development and career advancement, covering three key areas: Industry-Academic R&D Collaboration; Commercialization; and Entrepreneurship. Other key initiatives are the IBM Smart Computing Initiative and Colleges Ontario Network for Industry Innovation (CONII). In partnership with industry, OCE co-invests to commercialize innovation originating in the province's publicly funded colleges, universities and research hospitals. They also support and invest in early-stage projects, where the probability of commercial success and potential total return on innovation are substantial. Another expanding focus for OCE is the development of the next generation of innovators through their entrepreneurship fellowships and programs for students and youth across Ontario. Their efforts are focused on sectors of the economy with the greatest potential to drive Ontario's future prosperity and global competitiveness: energy and environment (including water); advanced manufacturing; advanced health technologies; and information, communications technologies and digital media. A trusted partner of government in program delivery, they are committed to advancing a whole-of-government approach as a means of streamlining funding application processes for companies and entrepreneurs.

Abbreviations: OCE
