Description: Japanese pharmaceutical company formed from the merger of Yamanouchi Pharmaceutical Co., Ltd. and Fujisawa Pharmaceutical Co., Ltd. Astellas' franchise areas are urology, immunology (transplantation), dermatology, cardiology, and infectious disease. Priority areas for R&D are infectious diseases, diabetes, gastrointestinal diseases, oncology, and diseases of the central nervous system. The company's headquarters are in Tokyo, with research centers in Tsukuba and Osaka. Clinical development is centered in Northbrook, Illinois and Leiderdorp, Netherlands. Combined revenues of the two pre-merger companies were \$7.9 billion in 2004. Worldwide the company employs about 17,000 people. (Wikipedia)
