Proper Citation: Nephropath (RRID:SCR_003995)

Description: Commercial service interpreting renal biopsies using 14 board-certified, fellowship-trained pathologists with decades of experience. They provide doctors with a high quality, clinico-pathologic discussion by the pathologist that read the case. It is their goal to help equip doctors with the results they need to deliver the most effective patient care possible. That is why they deliver same-day biopsy results, including EM, because they know that time often has a critical effect on the outcome of many renal diseases. Nephropath also offers PLA2R serum testing and will soon be offering neuropathology services including muscle and nerve biopsy services. Nephropath is now Arkana Laboratories.

Abbreviations: Nephropath

Resource Type: commercial organization

Keywords: pathology, neuropathology, muscle, nerve, biopsy service, pathologist, kidney, biopsy, renal, serum, neurology

Related Condition: Kidney disease

Resource Name: Nephropath
