Description: Emergency Medicine is an Open-Content Textbook of Emergency Medicine. This wikibook is intended to be a collaborative communication between physicians, nurses, physician assistants, paramedics, EMTs and other healthcare providers. It is not intended for the general public. It is under development and inevitably contains many errors and omissions. As the information in this textbook can be edited by anyone, regardless of whether they are medically trained or not, it should not be used as a guide to treating yourself or anyone else!
