Proper Citation: Childhood Brain Tumor Foundation (RRID:SCR_004421)

Description: The Childhood Brain Tumor Foundation (CBTF), an all-volunteer organization, was founded in 1994 by families, friends and physicians of children with brain tumors. Our mission is to raise funds for scientific research and heighten public awareness of this most devastating disease and to improve prognosis and quality of life for those that are affected. Founded and incorporated in Virginia, relocated to Maryland in 1998, the Foundation (a 501(c) (3), strives to meet the goals of our mission. Friends, families, and physicians brought CBTF together and are dedicated to serving the needs of families and children with brain tumors, in hopes of improving the quality of life and find cures for pediatric brain tumors. Annually, CBTF funds basic science or clinical research for pediatric brain tumors; conferences and other programs. We provide informational materials on our website and mail other information (nationally and internationally) upon request. The Childhood Brain Tumor Foundation (CBTF) has funded state-of-the-art research and supported conferences for pediatric brain tumors over the past 17 years. Grants submissions are reviewed thoroughly by our dedicated renown team of scientific advisors to ensure that CBTF selects the highest quality research for pediatric brain tumors. Each year, we receive so many outstanding applications and it is through the support of private and public donations that this is all possible. With your support, together, we will strive to find a cure for children's brain tumors.
