Proper Citation: LifeLink Tissue Bank (RRID:SCR_004546)

Description: Established in 1985, LifeLink Tissue Bank is a not-for-profit organization dedicated to serving patients in need of transplantation therapy. It is one of five divisions of the LifeLink Foundation and the largest not-for-profit tissue bank in the Southeast and one of the largest in the United States. LifeLink Tissue Bank is inspected and accredited by The American Association of Tissue Banks (AATB). Our goal is to provide the safest, most clinically effective allografts while remaining cognizant of the rising cost of medical care. Donors and their families are the core of our organization. We treat them with respect, show them compassion, and offer them comfort in knowing that their confidentiality is protected and their gifts optimally utilized. Our allografts are utilized by surgeons and hospitals that trust LifeLink to provide them with safe and clinically effective allografts. Every effort is made to ensure that our allografts are placed back in the hospitals of the communities that we serve with organ and tissue recovery services.
