Proper Citation: UCSD Experimental Neuropath Laboratory (RRID:SCR_004906)

Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented August 31, 2016. The Laboratory of Experimental Neuropathology is engaged in the study of neurodegenerative disease, including Alzheimer's, Parkinson's, and the dementia of HIV encephalitis. It contains a large bank of materials available to fellow investigators including images, publications, and lab safety. Fellow Investigators and Collaborators may request materials from the brain bank. Technologies employed by the laboratory include immunocytochemistry, neurochemistry, molecular genetics, transgenic models of disease, and imaging by scanning laser confocal microscopy.

Synonyms: UCSD Experimental Neuropathology Laboratory, Laboratory of Experimental Neuropathology

Resource Type: brain bank, tissue bank, material resource, biomaterial supply resource

Keywords: brain, tissue, neurodegenerative disease, alzheimer'disease, parkinson's disease, huntington's disease, hiv dementia, dementia, human immunodeficiency virus, encephalitis, neuronal degeneration, postmortem, brain bank

Related Condition: Neurodegenerative disease, Alzheimer's disease, Parkinson's disease, Huntington's disease, HIV dementia
