Proper Citation: European Language Resources Association (RRID:SCR_004909)

Description: ELRA is the driving force to make available the language resources for language engineering and to evaluate language engineering technologies. In order to achieve this goal, ELRA is active in identification, distribution, collection, validation, standardization, improvement, in promoting the production of language resources, in supporting the infrastructure to perform evaluation campaigns and in developing a scientific field of language resources and evaluation. ELRA's missions are to promote language resources for the Human Language Technology (HLT) sector, and to evaluate language engineering technologies. To achieve these two major missions, we offer a range of services, listed below and described in the Services around Language Resources section: - Identification of language resources - Promotion of the production of language resources - Production of language resources - Validation of language resources - Evaluation of systems, products, tools, etc., related to language resources - Distribution of language resources - Standardization The promotion of the production of language resources also includes our support of the infrastructure for evaluation campaigns and our support in developing a scientific field of language resources and evaluation, e.g. via the LREC conference. ELRA also regularly conducts market studies and surveys in the field of HLT, and publishes a quarterly newsletter, distributed not only to its members but also to a large number of people in the HLT community.
