Proper Citation: TMF (RRID:SCR_004993)

Description: As an umbrella organization for medical research networks, the TMF is responsible for improving the organization and infrastructure of medical research in networked structures. It supports researchers at the various locations in jointly identifying and solving problems of an organizational, legal and technical nature that are often not associated with the particular clinical problem or research focus. The network not only focuses on legal and ethical frameworks for networked medical research but also on the development of IT infrastructure, quality management activities for science-initiated trials and questions on the intermeshing of research and patient care. Under the umbrella organization of the TMF, expert opinions, studies, concepts, requirements specifications, services and tools are created. The products of the cooperation within the TMF are available to the research community. The aims of joint work in the TMF are: *

- Improvement of medical research in terms of quality, organization and cooperation *
- Solution of questions spanning networked medical research, e.g. on the collection, processing and exchange of research data *
- Clarification of the legal and ethical foundations for performing medical research *
- Issues of quality assurance and quality management *
- Development and extension of efficient IT infrastructures and their implementation in cross-institutional networked structures *
- Realization of cross-location solutions *
- Contributions to sustainable and efficient health research by means of the improved transfer of research findings to patient care

Abbreviations: TMF

Synonyms: Technology Methods and Infrastructure for Networked Medical Research, TMF - Technology Methods and Infrastructure for Networked Medical Research, Technology Methods Infrastructure for Networked Medical Research

Resource Type: organization portal, data or information resource, portal

Keywords: research, clinical, network, medical research, epidemiological, translational, information technology infrastructure, information technology, infrastructure

Funding: German Federal Ministry of Research and Education

Resource Name: TMF

Resource ID: SCR_004993

Alternate IDs: nlx_143998

Record Creation Time: 20220129T080227+0000

Record Last Update: 20260803T040406+0000
