### Resource Information

**URL:** <http://www.nasonline.org/news-and-multimedia/podcasts/>

**Proper Citation:** National Academy of Sciences Podcasts (RRID:SCR\_005124)

**Description:** Subscribe to the National Academy of Sciences podcasts to learn more about scientists and their work, the latest in research, and key findings of National Research Council reports. \* **InterViews:** InterViews provides first-person accounts of the lives and work of National Academy of Sciences members. In this series of one-on-one conversations, scientists talk about what inspired them to pursue the careers they chose and describe some of the most fascinating aspects of their research. \* **Science Sessions:** The Proceedings of the National Academy of Sciences offers brief, 5-minute, nontechnical conversations with cutting-edge researchers, including members of the National Academy of Sciences, and policymakers as they discuss topics relevant to today's scientific community. Learn the behind-the-scenes story of work published in PNAS, plus a broad range of scientific news about discoveries that affect the world around us. \* **News from the National Academies:** Listen to the latest news conferences and public briefings on National Research Council and Institute of Medicine reports. \* **Sounds of Science:** This informative and entertaining series puts a spotlight on the high-impact work of the National Research Council. Focusing on a wide range of critical issues in science, engineering, and medicine, these short episodes are a quick and easy way to tune in our key findings and important recommendations. \* **Cultural Programs:** The Cultural Programs of the National Academy of Sciences presents public exhibitions, lectures, and other programs exploring the intersections of art, science, and culture. The podcast features audio recordings of past lectures and other events. \* **Engineering Innovation:** This weekly podcast from the National Academy of Engineering highlights exciting developments in engineering and provides technical context to stories in the news. The 40-second episodes demonstrate how engineers are making an impact in energy, health, the environment, sports, and more.
