**Proper Citation:** BioPortfolio (RRID:SCR\_005230)

**Description:** BioPortfolio is a leading news, information and knowledge resource covering the global life science industries impacted on by biotechnology. The site aims to provide the lay person, the researcher and the management executive with a single location to source core information on specific bio-related topics, to collate relevant data associated with each topic and to point the user to relevant knowledge resources. We publish up to the minute news (see biotechnology news categories) and regularly update content across our information databases. BioPortfolio promotes and sells market research and management reports from 30+ publishers. In addition our unique corporate database lists 40,000+ companies and organizations. BioPortfolio aims to bring together high quality information about marketed drugs - medication and relevant clinical trials, research papers and recent news from PubMed, ClinicalTrials.gov, and DailyMed. Additionally, resources include biotech, pharma and medical job listings. When the BioPortfolio site was launched in February 1997 the company aimed to provide a global free-to-use resource with defined aims and mission statement: to meet the increasing demand of consumers, scientists, investors, commerce and government for timely, accurate and commercially useful information and intelligence on biotechnology companies, technologies and products world-wide. Driven by the success of the site we have made major investments and improvements to enhance our content and to apply the latest web technologies to improve functionality and site utility. We believe this unique depth and breadth of content is supporting individuals, organizations and policy-makers to become more aware of the role of biotechnology on the global economy. With 97,000 users visiting the site more than once per month we are confident that we are providing information our users need. We hope you the users find the site of value for both personal and professional reasons. Please enjoy this free resource and email your comments!

**Abbreviations:** BioPortfolio
