Description: THIS RESOURCE IS NO LONGER IN SERVICE. Documented on October 19, 2020. A program to align short sequences that has been developed with an innovative strategy to perform fast gapped and ungapped alignment onto a reference sequence. It supports several data formats and allows the user to modulate very finely the sensitivity of the alignments. The program is designed to handle huge amounts of short reads generated by ILLUMINA, SOLiD and Roche-454 technology. The optimization of the internal data structure and a filter based on precomputed short-word alignments allow the program to skip false positives in the extension phase, thus reducing the execution time without loss of sensitivity. The final alignment is performed by dynamic programming., THIS RESOURCE IS NO LONGER IN SERVICE. Documented on September 16, 2025.

Abbreviations: PASS

Synonyms: PASS: a program to align short sequences

Resource Type: software resource

Defining Citation: [PMID:19218350](#)

Keywords: bio.tools

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: PASS

Resource ID: SCR_005490

Alternate IDs: biotools:pass, OMICS_00673

Alternate URLs: <https://bio.tools/pass>

Record Creation Time: 20220129T080230+0000

Record Last Update: 20260912T195627+0000

Ratings and Alerts

No rating or validation information has been found for PASS.

No alerts have been found for PASS.
