Proper Citation: BrainEthics Podcast (RRID:SCR_005533)

Description: How do the recent developments in neuroscience affect psychology and society? Today, many new findings challenge the way we think about ourselves and others. These changes impact on how we should think about issues such as the self, mentality, psychology, free will, morale, law and society. Through interviews of prominent scholars in the fields of neuroscience and beyond, the BrainEthics Podcast provides updated, novel and comprehensive news and views from the world of neuroscience, and how the world responds to it. We provide a full list of all podcast episodes. Although we are hosting all episodes, you can also subscribe to the podcast on all major podcasting directories.
