Proper Citation: Short Course on the Genetics of Addiction (RRID:SCR_005560)

Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented August 23, 2016. This course emphasizes genetic applications and approaches to drug addiction research through methodological instruction based on literature, data sets and informatics resources drawn from studies of addiction related phenotypes. The course includes plenary sessions on major progress in addiction genetics, and discussion sessions in which students present their work for discussion on applications of genetic methods. Students will leave the course able to design and interpret genetic and genomic studies of addiction as they relate to their specific research question, and will be able to make use of current bioinformatics resources to identify research resources and make use of public data sources in their own research.

Abbreviations: Genetics of Addiction

Resource Type: training resource, short course

Keywords: addiction, gene, genetic, genomic, addiction, drug

Related Condition: Drug addiction

Funding: Howard Hughes Medical Institute ;
NIDA R13 DA 032192

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: Short Course on the Genetics of Addiction

Resource ID: SCR_005560

Alternate IDs: nlx_146202
