Resource Information

URL: <http://www.bsccs.org/science-mental-illness>

Proper Citation: Science of Mental Illness: Grades 6- 8 (RRID:SCR_005612)

Description: A set of lessons for students used to gain insight into the biological basis of mental illnesses and how scientific evidence and research can help us understand its causes and lead to treatments and, ultimately, cures. Both the Web version and the free supplement are available. It is a creative, inquiry-based instruction program designed to promote active learning and stimulate student interest in medical topics. This curriculum supplement aims to help students experience the process of scientific inquiry and develop an enhanced understanding of the nature and methods of science.
