General Neural Simulation System

RRID:SCR_006316

Type: Tool

Proper Citation

General Neural Simulation System (RRID:SCR_006316)

Resource Information

URL: <http://genesis-sim.org/>

Proper Citation: General Neural Simulation System (RRID:SCR_006316)

Description: General purpose simulation platform developed to support the simulation of neural systems ranging from subcellular components and biochemical reactions to complex models of single neurons, simulations of large networks, and systems-level models. As such, GENESIS, and its version for parallel and networked computers (PGENESIS) was the first broad scale modeling system in computational biology to encourage modelers to develop and share model features and components. User contributed GENESIS models and simulations are available. You may contribute a model or simulation. Educational tutorials for instruction in both neurobiology and computational methods have been developed. These tutorials and GENESIS are now being widely used in graduate and undergraduate instruction. These uses include full semester courses in computational neuroscience or neural modeling, short intensive courses or workshops, an option for a course project, and short units on computational neuroscience within courses on artificial neural nets. They also have a repository of user-contributed tutorials and materials for use in neuroscience education. If you have course descriptions, syllabi, exercises, tutorials, or short HOWTO documents, please upload them to Education.

Abbreviations: GENESIS

Synonyms: GENESIS, GENESIS Simulator, GEneral NEural Simulation System

Resource Type: data or information resource, software toolkit, narrative resource, software library, software resource, software application, data set, source code, simulation software, training material

Keywords: electrophysiology, computer, in silico, model, modeling, simulation, neural system, network, neurobiology, computational neuroscience, neural modeling, subcellular, biochemical reaction, neuron, channel, cell, FASEB list

Availability: The community can contribute to this resource

Resource Name: General Neural Simulation System

Resource ID: SCR_006316

Alternate IDs: nif-0000-00091

Alternate URLs: <http://www.nitrc.org/projects/genesis> <http://genesis-sim.org/GENESIS/>

Record Creation Time: 20220129T080235+0000

Record Last Update: 20260808T185842+0000

Ratings and Alerts

No rating or validation information has been found for General Neural Simulation System.

No alerts have been found for General Neural Simulation System.
