Proper Citation: Genomes Unzipped (RRID:SCR_006870)

Description: A group blog providing expert, independent commentary on the personal genomics industry. The goal of the project is to provide genetic testing consumers with independent and informed analysis of developments in the field of genetics and the genetic testing industry. Members of Genomes Unzipped include active researchers in various fields of genetics, as well as specialists in the legal and public health issues surrounding new genomic technologies. Many of us have also been extensively involved in public communication about genetics. Members of the group have had their DNA tested with a variety of products. We have released all of these genetic data openly to the public, both as raw data and in a custom genome browser. As the project proceeds we plan to obtain more genetic tests up to and including whole genome sequencing and to continue to release these data to the world. The group is also performing analyses of our own raw genetic data to illustrate fundamental concepts in genetics, using software written both by group members and other collaborators; and we'll be releasing the code for that software in our new code repository. As the project expands, we'll be looking to add data from other volunteers to the project, as well as to collaborate with other genome hackers on the development of new tools for exploring genetic data.

Abbreviations: Genomes Unzipped

Resource Type: blog, narrative resource, source code, data or information resource, software resource, data set

Keywords: genomics, genetics, dna, sequencing

Availability: Except where otherwise specified, Creative Commons Attribution-ShareAlike License, v3 Unported, Genomes Unzipped project genetic data, Is made available under, CC0

Resource Name: Genomes Unzipped

Resource ID: SCR_006870

Alternate IDs: OMICS_01831, nlx_144200

Record Creation Time: 20220129T080238+0000

Record Last Update: 20260804T043311+0000

Ratings and Alerts

No rating or validation information has been found for Genomes Unzipped.

No alerts have been found for Genomes Unzipped.
